

Create a better business on all parameters!

### **A better environment**

Water is a scarce resource, which we should all take care of. It is important to implement new solutions that benefits the environment and brings focus on the climate changes that we all face.

### **A stronger reputation**

Like the rest of your sustainable choices, Aguardio helps you send a strong message to the outside world that you want to make a difference and lead your hotel in a more sustainable direction. Not only will you become first movers, but more importantly set a good example for the rest of the industry.

### **Optimised consumption of resources**

Aguardio creates an awareness about the guests' shower behaviour, which means reduced water and energy consumption, and that saves you money.

### **Employee commitment**

With your increased focus on sustainability and positive imprint on the world, your employees will be proud to work in a company that takes environmental issues seriously, and they would want to be part of a winning team!

Aguardio can easily be incorporated into your daily life →

# Aguardio

Save 20% on your water consumption with Aguardio!

Easy installation and maintenance of Aguardio Sensor & Display in the shower cabin (plug-&-play). Adaptable to the hotel design.

Connect Aguardio Sensor to the hotel Wi-Fi. The Aguardio Display is automatically activated.

The Sensor collects shower data, while the Display encourages the guest to spend less time in the shower.

The solution gives access to valuable data shown in graphs (temperature, humidity, Display effect etc.) regarding operational optimisation.

The Aguardio Sensor & Display is a simple solution with a proven water saving on 20%. All for the benefit of the environment.
