We'll ensure your customers are fully satisfied and leave with a smile.

- No more endless waiting around to order a meal, snack or drink
- No more waiting for a waiter to finally see you
- No more waiting in line to pay your bill
- No more negative customer reviews to blemish your business reputation
- No more unappetising menus missing out the details of your dishes and cocktails
- No more waiters unable to translate your menu into other languages, turning off international customers
- No more missed sales opportunities at rush hour, or when you're unexpectedly busy
- No more forgotten customers and as a result lost sales
- No more waiters dropping out at the last moment and ruining your service
- No more running around to seat your customers, take orders, serve them and take their payments

Delight your clients, boost your turnover and manage your service serenely and professionally. When you choose Heyou, you're choosing a more pleasurable customer experience and a promise of quality.

Our solution gives you much more:

- An iOS and Android app solution
- A multi-devices solution, compatible with smartphones, tablets, terminals and PCs
- A user-friendly, adaptable and multilingual solution
- A solution in line with article 88 and the GDPR standards
- A solution that tracks your turnover in real time
- A solution which includes quick registre check-outs at the end of the day
- A solution which will give you a real edge over the competition
